

## MOBILE BROWSER BANKING

Mobile Browser Banking (also known as Wireless Application Protocol or WAP) uses the wireless internet browser on a mobile device to enable you to perform transactions, locate ATMs, and more.

After logging in to Mobile Touch Banking with a secure login via the custom link that the system sent to you during the enrollment process, you can:

- View account balances and transaction history
- Transfer funds
- View ATM and branch locations

Mobile Browser Banking:

- Functions on all phones capable of accessing the internet
- Works with most US Carriers
- Locate ATM and Branch locations

## REQUIREMENTS

To use Mobile Browser Banking, you must have a mobile device with an internet browser; the mobile service carrier may require a data service plan to use the internet browser on the device.
